

Features

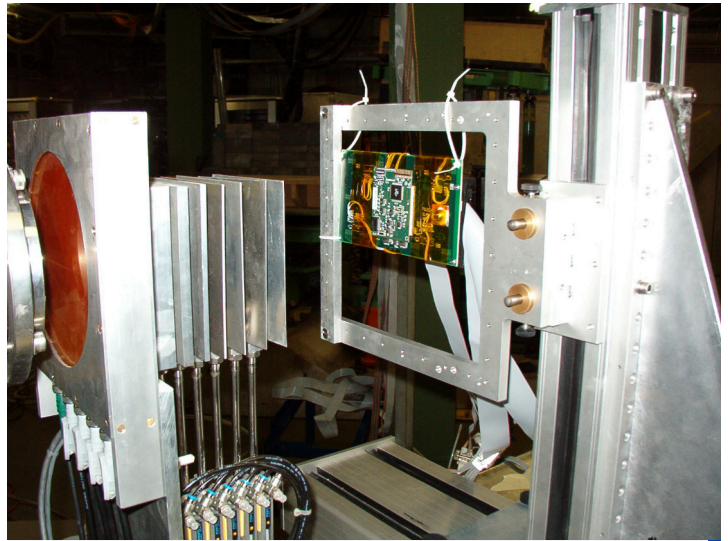

- **Organization of radiation test**
 - Proton test
 - Heavy Ion tests
 - SEE, TID, NIEL
- **Design of test HW setup**
- **Preparation of test campaign**
- **Radiation Tests of devices**
- **Radiation tests of chips**
- **Test samples preparation**
- **Chip sample thinning**

Description

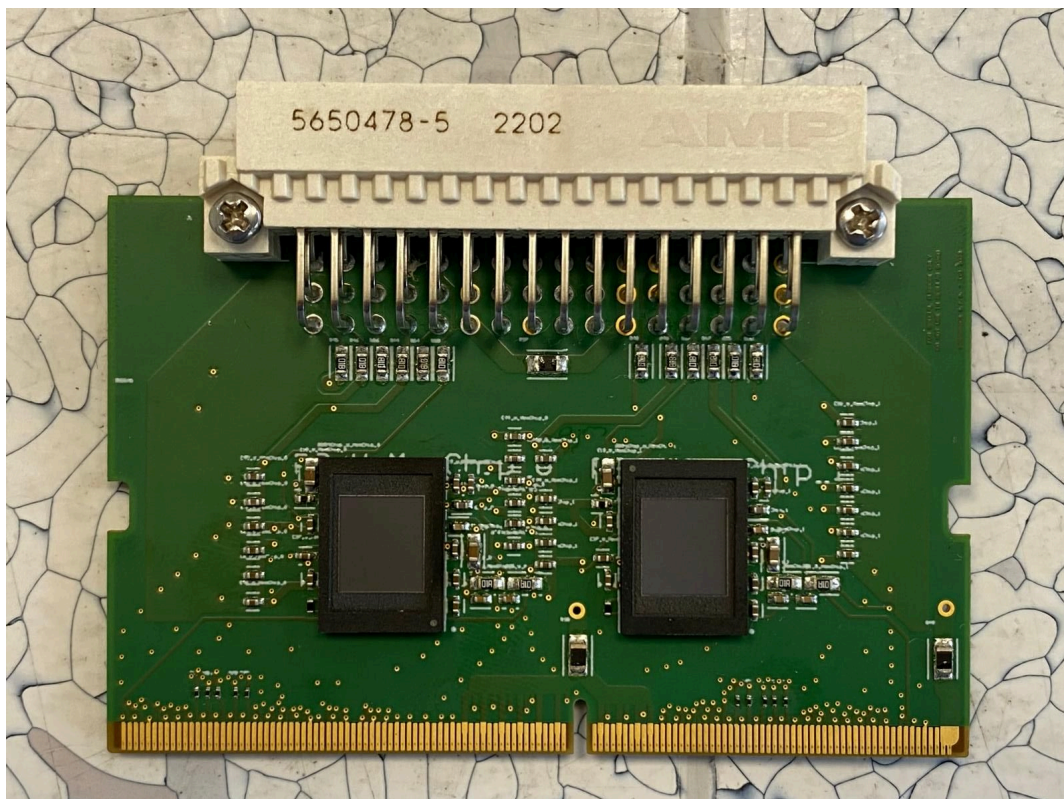

egsespace s.r.o. organizes radiation test campaign. The company has long time experience with testing of components and devices.

egsespace s.r.o. designs test setups, special HW samples and performs test itself in collaboration with customer.

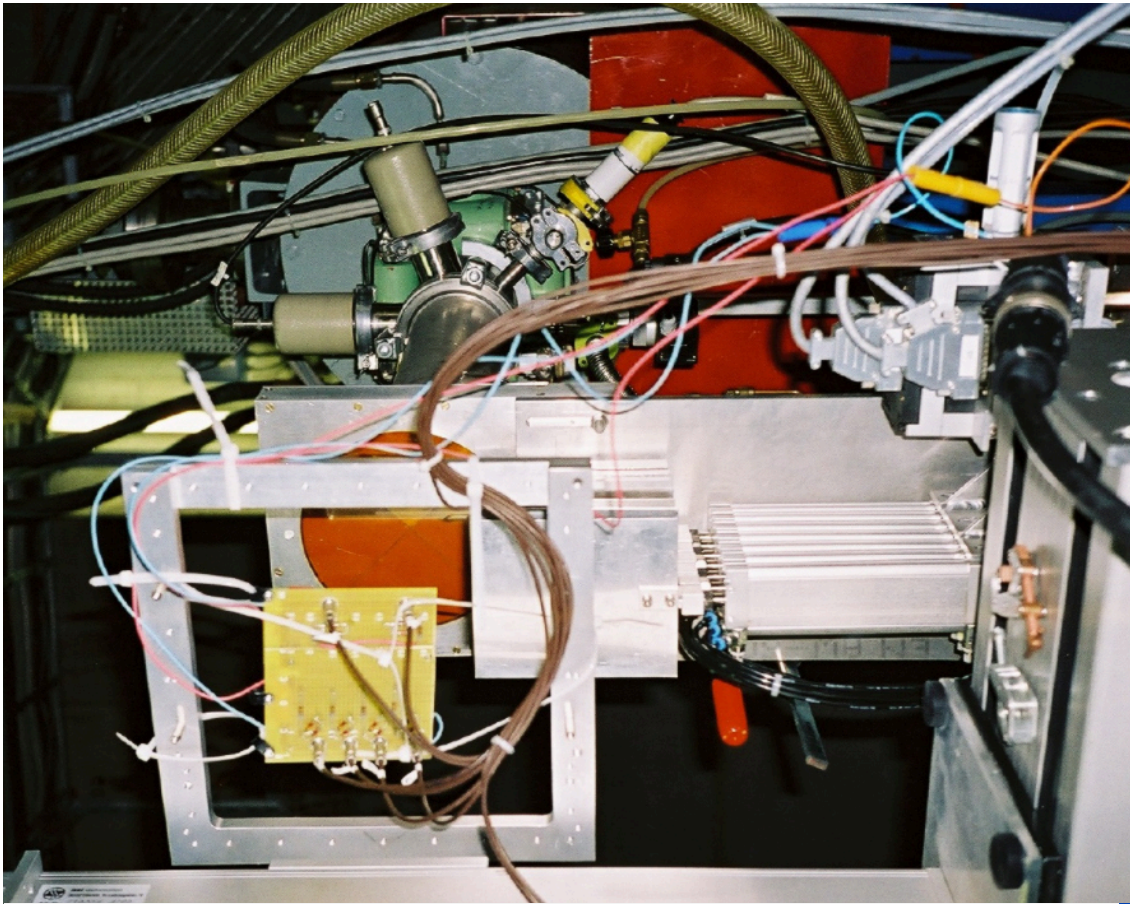

egsespace s.r.o. can prepare chips for heavy ion tests - thinning.

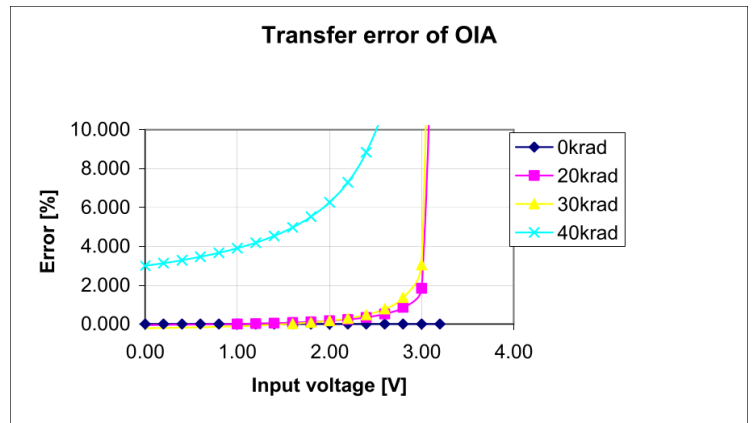

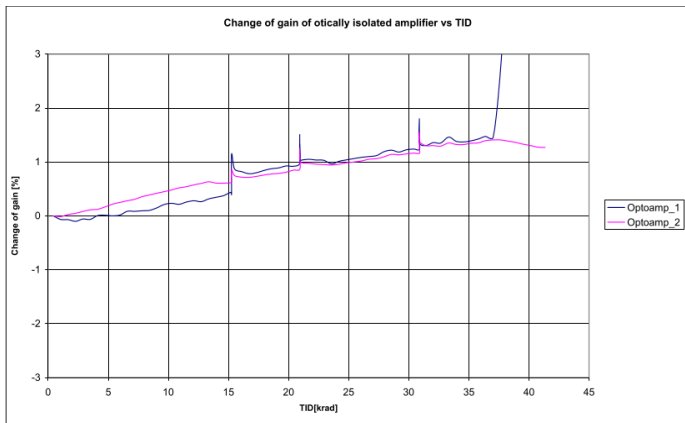

Electronics under proton test

Thinned chips for heavy ion tests assembled on PCB

Test setup of MOSFETs in proton beam
